**SEPTEMBER 2023 through AUGUST 2025**

## **TEXAS GAME WARDENS**

Since 1895, Texas Game Wardens have continued to serve the citizens of Texas by providing professional law enforcement, search and rescue, and water safety while working to conserve and protect the natural resource of Texas.

### **MARINE SAFETY ENFORCEMENT OFFICER PROGRAM ONLINE**

In order to enforce the provisions of this code or any ordinances adopted under it a Peace Officer MUST be certified as a Marine Safety Enforcement Officer.

The MSEO course is now online for ease of access. Officers are encouraged to the following link to register for and take the course: [www.tpwd.texas.gov/fishboat/boat/marine\\_safety\\_enforcement\\_officer/](http://www.tpwd.texas.gov/fishboat/boat/marine_safety_enforcement_officer/)

If you have any questions please contact the Marine Enforcement Section via phone at (512) 389-4846 or by email at [le.marine@tpwd.texas.gov](mailto:le.marine@tpwd.texas.gov).

Prior to attending the MSEO course each student **MUST** complete and show proof of Boater Education.

Class consists of an instruction on the provisions of this code and relative excerpts from other state and federal codes.

For operational training the Department would encourage officers to seek National Association of State Boating Law Administrator's (NASBLA) Boat Operations and Training Courses (BOAT) which are nationally recognized as the uniform standard of training and operation across the nation.

### **VESSEL INCIDENT REPORTING REQUIREMENTS AND OPEN WATER DROWNING REPORTING REQUIREMENTS**

- All incidents in which a vessel is involved and includes injuries beyond first aid, damage to property greater than \$2,000 or fatalities must be reported by the investigating officer to the Texas Parks and Wildlife Department within 15 days on the Boating Incident Investigation & Boating Related Water Fatality Report Form PWD-1303 which can be found on the Game Warden Page under forms at [www.tpwd.texas.gov/warden/forms](http://www.tpwd.texas.gov/warden/forms). Reports may be electronically submitted to the Department on the prescribed form, emailed to [le.marine@tpwd.texas.gov](mailto:le.marine@tpwd.texas.gov).

(f) A dealer, distributor, or manufacturer holding a dealer's, distributor's, or manufacturer's license may issue a reasonable temporary facsimile of the number issued under Subsection (c), which may be used by any authorized person. The form of the facsimile and the manner of display of the number shall be prescribed by the department.

(g) A dealer, distributor, or manufacturer holding a dealer's, distributor's, or manufacturer's license may transfer a certificate of number or a certificate of title to a vessel or outboard motor without securing a certificate of number or certificate of title in the dealer's, distributor's, or manufacturer's name if the vessel or outboard motor is sold in the normal course of the dealer's, distributor's, or manufacturer's business.

(h) Not later than the 45th day after a dealer, distributor, or manufacturer holding a dealer's, distributor's, or manufacturer's license sells at the first or a subsequent sale a vessel or outboard motor, the dealer, distributor, or manufacturer shall apply, in the name of the purchaser of the vessel or outboard motor, for a certificate of number or a certificate of title for the vessel or outboard motor, as applicable, and file with the department each document necessary to transfer the certificate of number or certificate of title.

(i) A person purchasing a vessel may use the temporary facsimile number issued under Subsection (f) for a period not to exceed 45 days from the date the dealer, distributor, or manufacturer applies for a certificate of number or a certificate of title under Subsection (h). The person shall retain the facsimile number on the vessel for the period described by this subsection.

(c) A security interest owner may assign a security interest recorded under this chapter without making any filing or giving any notice under this chapter. The security interest assigned remains valid and perfected and retains its priority, securing the obligation assigned to the assignee, against transferees from and creditors of the debtor, including lien creditors, as defined by Section 9.102, Business & Commerce Code.

(d) An assignee or assignor may, but need not to retain the validity, perfection, and priority of the security interest assigned, as evidence of the assignment of the security interest recorded under this chapter, apply to the department or a county assessor-collector for the assignee to be named as security interest owner on the certificate of title and notify the debtor of the assignment. The evidence shall reflect the proper exercise of the right conferred pursuant to the lien.

(c) The transferor shall provide the documents or evidence required by Subsection (a) of this section to the department or the transferee, as appropriate, in sufficient time to allow the transferee to register and obtain a certificate of title for the vessel or outboard motor not later than the 45th day after the date of the sale.

(d) Notwithstanding the provisions of Subsection (a) of this section, a buyer of a new vessel or a new outboard motor in the ordinary course of business as provided in Section 9.320(a), Business & Commerce Code, takes the interest free of security interests as provided in that section. A buyer of a vessel or outboard motor that is not new shall be governed by Subsection (a) of this section.

(e) The transferee shall provide the department with sufficient evidence of ownership for transfer of a vessel or outboard motor if the transferee:

# EXCERPTS FROM FEDERAL LAWS

## UNITED STATES CODE, TITLE 33 Inland Navigational Rules Part 83

### SUBCHAPTER 1 - RULES

#### SUBPART A - GENERAL

##### **§83.01. Application (Rule 1)**

(a) These Rules apply to all vessels upon the inland waters of the United States, and to vessels of the United States on the Canadian waters of the Great Lakes to the extent that there is no conflict with Canadian law. The regulations in this subchapter (subchapter E, 33 CFR parts 83 through 90) have preemptive effect over State or local regulation within the same field.

(b) (i) These Rules constitute special rules made by an appropriate authority within the meaning of Rule 1(b) of the International Regulations for Preventing Collisions at Sea, 1972, including annexes currently in force for the United States (“International Regulations”).

(ii) All vessels complying with the construction and equipment requirements of the International Regulations are considered to be in compliance with these Rules.

(c) Nothing in these Rules shall interfere with the operation of any special rules made by the Secretary of the Navy with respect to additional station or signal lights and shapes or whistle signals for ships of war and vessels proceeding under convoy, or by the Secretary with respect to additional station or signal lights and shapes for fishing vessels engaged in fishing as a fleet. These additional station or signal lights and shapes or whistle signals shall, so far as possible, be such that they cannot be mistaken for any light, shape, or signal authorized elsewhere under these Rules. Notice of such special rules shall be published in the Federal Register and, after the effective date specified in such notice, they shall have effect as if they were a part of these Rules.

(d) Traffic separation schemes may be established for the purpose of these Rules. Vessel traffic service regulations may be in effect in certain areas.

(e) Whenever the Secretary determines that a vessel or class of vessels of special construction or purpose cannot comply fully with the provisions of any of these Rules with respect to the number, position, range, or arc of visibility of lights or shapes, as well as to the disposition and characteristics of sound-signaling appliances, the vessel shall comply with such other provisions in regard to the number, position, range, or arc of visibility of lights or shapes, as well as to the disposition and characteristics of sound-signaling appliances, as the Secretary shall have determined to be the closest possible compliance with these Rules. The Secretary may issue a certificate of alternative compliance for a vessel or class of vessels specifying the closest possible compliance with these Rules. The Secretary of the Navy shall make these determinations and issue certificates of alternative compliance for vessels of the Navy.

(f) The Secretary may accept a certificate of alternative compliance issued by a contracting party to the International Regulations if it determines that the alternative compliance standards of the contracting party are substantially the same as those of the United States.

(g) The operator of each self-propelled vessel 12 meters or more in length shall carry, on board and maintain for ready reference, a copy of these Rules.

##### **§83.02. Responsibility (Rule 2)**

(a) Nothing in these Rules shall exonerate any vessel, or the owner, master, or crew thereof, from the consequences of any neglect to comply with these Rules or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

(b) In construing and complying with these Rules due regard shall be had to all dangers of navigation and collision and to any special circumstances, including the limitations of the vessels involved, which may make a departure from these Rules necessary to avoid immediate danger.

#### §83.07. Risk of collision (Rule 7)

(a) Every vessel shall use all available means appropriate to the prevailing circumstances and

conditions to determine if risk of collision exists. If there is any doubt such risk shall be deemed to exist.

(b) Proper use shall be made of radar equipment if fitted and operational, including long-range scanning to obtain early warning of risk of collision and radar plotting or equivalent systematic observation of detected objects.

(c) Assumptions shall not be made on the basis of scanty information, especially scanty radar information.

(d) In determining if risk of collision exists the following considerations shall be among those taken into account:

(i) Such risk shall be deemed to exist if the compass bearing of an approaching vessel does not appreciably change.

(ii) Such risk may sometimes exist even when an appreciable bearing change is evident, particularly when approaching a very large vessel or a tow or when approaching a vessel at close range.

### **§83.08. Action to avoid collision (Rule 8)**

(a) Any action taken to avoid collision shall be taken in accordance with the Rules of this subpart (Rules 4-19) (§§83.04 through 83.19) and shall, if the circumstances of the case admit, be positive, made in ample time and with due regard to the observance of good seamanship.

(b) Any alteration of course and/or speed to avoid collision shall, if the circumstances of the case admit, be large enough to be readily apparent to another vessel observing visually or by radar; a succession of small alterations of course and/or speed should be avoided.

(c) If there is sufficient sea room, alteration of course alone may be the most effective action to avoid a close-quarters situation provided that it is made in good time, is substantial and does not result in another close-quarters situation.

(d) Action taken to avoid collision with another vessel shall be such as to result in passing at a safe distance. The effectiveness of the action shall be carefully checked until the other vessel is finally past and clear.

(e) If necessary to avoid collision or allow more time to assess the situation, a vessel shall slacken her speed or take all way off by stopping or reversing her means of propulsion.

(f) (i) A vessel which, by any of these Rules, is required not to impede the passage or safe passage of another vessel shall, when required by the circumstances of the case, take early action to allow sufficient sea room for the safe passage of the other vessel.

(ii) A vessel required not to impede the passage or safe passage of another vessel is not relieved of this obligation if approaching the other vessel so as to involve risk of collision and shall, when taking action, have full regard to the action which may be required by the Rules of Subpart B (Rules 4-19).

(iii) A vessel the passage of which is not to be impeded remains fully obliged to comply with the Rules of Subpart B (Rules 4-19) when the two vessels are approaching one another so as to involve risk of collision.

### **§83.09. Narrow channels (Rule 9)**

(a) (i) A vessel proceeding along the course of a narrow channel or fairway shall keep as near to the outer limit of the channel or fairway which lies on her starboard side as is safe and practicable.

(ii) Notwithstanding paragraph (a)(i) of this Rule and Rule 14(a) (§83.14(a)), a power-driven vessel operating in narrow channels or fairways on the Great Lakes, Western Rivers, or waters specified by the Secretary, and proceeding downbound with a following current shall have the right-of-way over an upbound vessel, shall propose the manner and place of passage, and shall initiate the maneuvering signals prescribed by Rule 34(a)(i) (§83.34(a)(i)), as appropriate. The vessel proceeding upbound against the current shall hold as necessary to permit safe passing.

(b) A vessel of less than 20 meters in length or a sailing vessel shall not impede the passage of a vessel that can safely navigate only within a narrow channel or fairway.

(c) A vessel engaged in fishing shall not impede the passage of any other vessel navigating within a narrow channel or fairway.

(d) A vessel must not cross a narrow channel or fairway if such crossing impedes the passage of a vessel which can safely navigate only within such channel or fairway. The latter vessel must use the signal prescribed in Rule 34(d) (§83.34(d)) if in doubt as to the intention of the crossing vessel.

(e) (i) In a narrow channel or fairway when overtaking, the power-driven vessel intending to overtake another power-driven vessel shall indicate her intention by sounding the appropriate signal prescribed in Rule 34(c) (§83.34(c)) and take steps to permit safe passing. The power-driven vessel being overtaken, if in agreement, shall sound the same signal and may, if specifically agreed to, take steps to permit safe passing. If in doubt she shall sound the signal prescribed in Rule 34(d) (§83.34(d)).

(ii) This Rule does not relieve the overtaking vessel of her obligation under Rule 13 (§83.13).

(f) A vessel nearing a bend or an area of a narrow channel or fairway where other vessels may be obscured by an intervening obstruction shall navigate with particular alertness and caution and shall sound the appropriate signal prescribed in Rule 34(e) (§83.34(e)).

(g) Any vessel shall, if the circumstances of the case admit, avoid anchoring in a narrow channel.

### **§83.10. Traffic separation schemes (Rule 10)**

(a) This Rule applies to traffic separation schemes and does not relieve any vessel of her obligation under any other Rule in subchapter E.

(b) A vessel using a traffic separation scheme shall:

(i) Proceed in the appropriate traffic lane in the general direction of traffic flow for that lane;

(ii) So far as practicable keep clear of a traffic separation line or separation zone;

(iii) Normally join or leave a traffic lane at the termination of the lane, but when joining or leaving from either side shall do so at as small an angle to the general direction of traffic flow as practicable.

(c) A vessel shall, so far as practicable, avoid crossing traffic lanes but if obliged to do so shall cross on a heading as nearly as practicable at right angles to the general direction of traffic flow.

(d) (i) A vessel shall not use an inshore traffic zone when she can safely use the appropriate traffic lane within the adjacent traffic separation scheme. However, vessels of less than 20 meters in length, sailing vessels, and vessels engaged in fishing may use the inshore traffic zone.

(ii) Notwithstanding paragraph (d)(i) of this Rule, a vessel may use an inshore traffic zone when en route to or from a port, offshore installation or structure, pilot station, or any other place situated within the inshore traffic zone, or to avoid immediate danger.

(e) A vessel other than a crossing vessel or a vessel joining or leaving a lane shall not normally enter a separation zone or cross a separation line except:

(i) In cases of emergency to avoid immediate danger;

(ii) To engage in fishing within a separation zone.

(f) A vessel navigating in areas near the terminations of traffic separation schemes shall do so with particular caution.

(g) A vessel shall so far as practicable avoid anchoring in a traffic separation scheme or in areas near its terminations.

(h) A vessel not using a traffic separation scheme shall avoid it by as wide a margin as is practicable.

(i) A vessel engaged in fishing shall not impede the passage of any vessel following a traffic lane.

(j) A vessel of less than 20 meters in length or a sailing vessel shall not impede the safe passage of a power-driven vessel following a traffic lane.

(k) A vessel restricted in her ability to maneuver when engaged in an operation for the maintenance of safety of navigation in a traffic separation scheme is exempted from complying with this Rule to the extent necessary to carry out the operation.

(l) A vessel restricted in her ability to maneuver when engaged in an operation for the laying, servicing, or picking up of a submarine cable, within a traffic separation scheme, is exempted from complying with this Rule to the extent necessary to carry out the operation.

## Conduct of Vessels in Sight of One Another

### §83.11. Application (Rule 11)

Rules 11 through 18 (§§83.11 through 83.18) apply to vessels in sight of one another.

### §83.12. Sailing vessels (Rule 12)

(a) When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows:

(i) When each has the wind on a different side, the vessel which has the wind on the port side shall keep out of the way of the other.

(ii) When both have the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(iii) If a vessel with the wind on the port side sees a vessel to windward and cannot determine with certainty whether the other vessel has the wind on the port or on the starboard side, she shall keep out of the way of the other.

(b) For the purpose of this Rule, the windward side shall be deemed to be the side opposite to that on which the mainsail is carried or, in the case of a square-rigged vessel, the side opposite to that on which the largest fore-and-aft sail is carried.

### §83.13. Overtaking (Rule 13)

(a) Notwithstanding anything contained in Rules 4 through 18 (§§83.04 through 83.18), any vessel overtaking any other shall keep out of the way of the vessel being overtaken.

(b) A vessel shall be deemed to be overtaking when coming up with another vessel from a direction more than 22.5 degrees abaft her beam; that is, in such a position with reference to the vessel she is overtaking, that at night she would be able to see only the sternlight of that vessel but neither of her sidelights.

(c) When a vessel is in any doubt as to whether she is overtaking another, she shall assume that this is the case and act accordingly.

(d) Any subsequent alteration of the bearing between the two vessels shall not make the overtaking vessel a crossing vessel within the meaning of these Rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

### §83.14. Head-on situation (Rule 14)

(a) Unless otherwise agreed, when two power-driven vessels are meeting on reciprocal or nearly reciprocal courses so as to involve risk of collision each shall alter her course to starboard so that each shall pass on the port side of the other.

(b) Such a situation shall be deemed to exist when a vessel sees the other ahead or nearly ahead and by night she could see the masthead lights of the other in a line or nearly in a line and/or both sidelights and by day she observes the corresponding aspect of the other vessel.

(c) When a vessel is in any doubt as to whether such a situation exists she shall assume that it does exist and act accordingly.

(d) Notwithstanding paragraph (a) of this Rule, a power-driven vessel operating on the Great Lakes, Western Rivers, or waters specified by the Secretary, and proceeding down bound with a following current shall have the right-of-way over an upbound vessel, shall propose the manner of passage, and shall initiate the maneuvering signals prescribed by Rule 34(a)(i) (§83.34(a)(i)), as appropriate.

### **§83.15. Crossing situation (Rule 15)**

(a) When two power-driven vessels are crossing so as to involve risk of collision, the vessel which has the other on her starboard side shall keep out of the way and shall, if the circumstances of the case admit, avoid crossing ahead of the other vessel.

(b) Notwithstanding paragraph (a) of this Rule, on the Great Lakes, Western Rivers, or water specified by the Secretary, a power-driven vessel crossing a river shall keep out of the way of a power-driven vessel ascending or descending the river.

### **§83.16. Action by give-way vessel (Rule 16)**

Every vessel which is directed to keep out of the way of another vessel shall, so far as possible, take early and substantial action to keep well clear.

### **§83.17. Action by stand-on vessel (Rule 17)**

(a) (i) Where one of two vessels is to keep out of the way, the other shall keep her course and speed.

(ii) The latter vessel may, however, take action to avoid collision by her maneuver alone, as soon as it becomes apparent to her that the vessel required to keep out of the way is not taking appropriate action in compliance with these Rules.

(b) When, from any cause, the vessel required to keep her course and speed finds herself so close that collision cannot be avoided by the action of the give-way vessel alone, she shall take such action as will best aid to avoid collision.

(c) A power-driven vessel which takes action in a crossing situation in accordance with paragraph (a)(ii) of this Rule to avoid collision with another power-driven vessel shall, if the circumstances of the case admit, not alter course to port for a vessel on her own port side.

(d) This Rule does not relieve the give-way vessel of her obligation to keep out of the way.

### **§83.18. Responsibilities between vessels (Rule 18)**

Except where Rules 9, 10, and 13 (§§83.09, 83.10, and 83.13) otherwise require:

(a) A power-driven vessel underway shall keep out of the way of:

- (i) A vessel not under command;
- (ii) A vessel restricted in her ability to maneuver;
- (iii) A vessel engaged in fishing;
- (iv) A sailing vessel.

(b) A sailing vessel underway shall keep out of the way of:

- (i) A vessel not under command;
- (ii) A vessel restricted in her ability to maneuver; and
- (iii) A vessel engaged in fishing.

(c) A vessel engaged in fishing when underway shall, so far as possible, keep out of the way of:

- (i) A vessel not under command; and
- (ii) A vessel restricted in her ability to maneuver.

(d) [Reserved]

(e) A seaplane on the water shall, in general, keep well clear of all vessels and avoid impeding their navigation. In circumstances, however, where risk of collision exists, she shall comply with the Rules of this Subpart (Rules 4-19) (§§83.04 through 83.19); and

(f) (i) a WIG craft shall, when taking off, landing and in flight near the surface, keep well clear

of all other vessels and avoid impeding their navigation; and

(ii) a WIG craft operating on the water surface shall comply with the Rules of this Subpart (Rules 4-19) (§§83.04 through 83.19) as a power-driven vessel.

[79 FR 37912, July 2, 2014, as amended by USCG-2012-0102, 79 FR 68621, Nov. 18, 2014]

## Conduct of Vessels in Restricted Visibility

### §83.19. Conduct of vessels in restricted visibility (Rule 19)

(a) This Rule applies to vessels not in sight of one another when navigating in or near an area of restricted visibility.

(b) Every vessel shall proceed at a safe speed adapted to the prevailing circumstances and conditions of restricted visibility. A power-driven vessel shall have her engines ready for immediate maneuver.

(c) Every vessel shall have due regard to the prevailing circumstances and conditions of restricted visibility when complying with Rules 4 through 10 (§§83.04 through 83.10).

(d) A vessel which detects by radar alone the presence of another vessel shall determine if a close-quarters situation is developing and/or risk of collision exists. If so, she shall take avoiding action in ample time, provided that when such action consists of an alteration of course, so far as possible the following shall be avoided:

(i) An alteration of course to port for a vessel forward of the beam, other than for a vessel being overtaken;

(ii) An alteration of course toward a vessel abeam or abaft the beam.

(e) Except where it has been determined that a risk of collision does not exist, every vessel which hears apparently forward of her beam the fog signal of another vessel, or which cannot avoid a close-quarters situation with another vessel forward of her beam, shall reduce her speed to the minimum at which she can be kept on course. She shall if necessary take all her way off and, in any event, navigate with extreme caution until danger of collision is over.

[79 FR 37912, July 2, 2014, as amended by USCG-2015-0433, 80 FR 44280, July 27, 2015]

The bell or gong or both may be replaced by other equipment having the same respective sound characteristics, provided that manual sounding of the prescribed signals shall always be possible.

(b) A vessel of less than 12 meters in length shall not be obliged to carry the sound signaling appliances prescribed in paragraph (a) of this Rule but if she does not, she shall be provided with some other means of making an efficient sound signal.

### **§83.34. Maneuvering and warning signals (Rule 34)**

(a) When power-driven vessels are in sight of one another and meeting or crossing at a distance within half a mile of each other, each vessel underway, when maneuvering as authorized or required by these Rules:

(i) Shall indicate that maneuver by the following signals on her whistle:

- (1) One short blast to mean "I intend to leave you on my port side";
- (2) Two short blasts to mean "I intend to leave you on my starboard side"; and
- (3) Three short blasts to mean "I am operating astern propulsion".

(ii) Upon hearing the one or two blast signal of the other shall, if in agreement, sound the same whistle signal and take the steps necessary to effect a safe passing. If, however, from any cause, the vessel doubts the safety of the proposed maneuver, she shall sound the signal specified in paragraph (d) of this Rule and each vessel shall take appropriate precautionary action until a safe passing agreement is made.

(b) A vessel may supplement the whistle signals prescribed in paragraph (a) of this Rule by light signals:

(i) These signals shall have the following significance:

- (1) One flash to mean "I intend to leave you on my port side";
- (2) Two flashes to mean "I intend to leave you on my starboard side";
- (3) Three flashes to mean "I am operating astern propulsion";

(ii) The duration of each flash shall be about 1 second; and

(iii) The light used for this signal shall, if fitted, be one all-round white or yellow light, visible at a minimum range of 2 miles, synchronized with the whistle, and shall comply with the provisions of Annex I to these Rules (33 CFR part 84).

(c) When in sight of one another:

(i) A power-driven vessel intending to overtake another power-driven vessel shall indicate her intention by the following signals on her whistle:

- (1) One short blast to mean "I intend to overtake you on your starboard side";
- (2) Two short blasts to mean "I intend to overtake you on your port side"; and

(ii) The power-driven vessel about to be overtaken shall, if in agreement, sound a similar sound signal. If in doubt she shall sound the signal prescribed in paragraph (d) of this Rule.

(d) When vessels in sight of one another are approaching each other and, from any cause, either vessel fails to understand the intentions or actions of the other, or is in doubt whether sufficient action is being taken by the other to avoid collision, the vessel in doubt shall immediately indicate such doubt by giving at least five short and rapid blasts on the whistle. Such signal may be supplemented by a light signal of at least five short and rapid flashes.

(e) A vessel nearing a bend or an area of a channel or fairway where other vessels may be obscured by an intervening obstruction shall sound one prolonged blast. This signal shall be answered with a prolonged blast by any approaching vessel that may be within hearing around the bend or behind the intervening obstruction.

(g) When a power-driven vessel is leaving a dock or berth, she shall sound one prolonged blast.

(h) A vessel that reaches agreement with another vessel in a head-on, crossing, or overtaking situation, as for example, by using the radiotelephone as prescribed by the Vessel Bridge-to-Bridge Radiotelephone Act (85 Stat. 164; 33 U.S.C. 1201 et seq.), is not obliged to sound the whistle signals prescribed by this Rule, but may do so. If agreement is not reached, then whistle signals shall be exchanged in a timely manner and shall prevail.

- (c) A vessel not under command; a vessel restricted in her ability to maneuver, whether underway or at anchor; a sailing vessel; a vessel engaged in fishing, whether underway or at anchor; and a vessel engaged in towing or pushing another vessel shall, instead of the signals prescribed in paragraphs (a) or (b) of this Rule, sound, at intervals of not more than 2 minutes, three blasts in succession, namely, one prolonged followed by two short blasts.
- (d) [Reserved]
- (e) A vessel towed or if more than one vessel is towed the last vessel of the tow, if manned, shall at intervals of not more than 2 minutes sound four blasts in succession, namely, one prolonged followed by three short blasts. When practicable, this signal shall be made immediately after the signal made by the towing vessel.
- (f) When a pushing vessel and a vessel being pushed ahead are rigidly connected in a composite unit they shall be regarded as a power-driven vessel and shall give the signals prescribed in paragraphs (a) or (b) of this Rule.
- (g) A vessel at anchor shall at intervals of not more than 1-minute ring the bell rapidly for about 5 seconds. In a vessel of 100 meters or more in length the bell shall be sounded in the forepart of the vessel and immediately after the ringing of the bell the gong shall be sounded rapidly for about 5 seconds in the after part of the vessel. A vessel at anchor may in addition sound three blasts in succession, namely, one short, one prolonged and one short blast, to give warning of her position and of the possibility of collision to an approaching vessel.
- (h) A vessel aground shall give the bell signal and if required the gong signal prescribed in paragraph (g) of this Rule and shall, in addition, give three separate and distinct strokes on the bell immediately before and after the rapid ringing of the bell. A vessel aground may in addition sound an appropriate whistle signal.
- (i) A vessel of 12 meters or more but less than 20 meters in length shall not be obliged to give the bell signals prescribed in paragraphs (g) and (h) of this Rule. However, if she does not, she shall make some other efficient sound signal at intervals of not more than 2 minutes.
- (j) A vessel of less than 12 meters in length shall not be obliged to give the above-mentioned signals but, if she does not, shall make some other efficient sound signal at intervals of not more than 2 minutes.
- (k) A pilot vessel when engaged on pilotage duty may, in addition to the signals prescribed in paragraphs (a), (b) or (g) of this Rule, sound an identity signal consisting of four short blasts.
- (l) The following vessels shall not be required to sound signals as prescribed in paragraph (g) of this Rule when anchored in a special anchorage area designated by the Coast Guard:

### § 175.25 Enforcement of State requirements for children to wear personal flotation devices

(a) This section applies to operators of recreational vessels on waters subject to the jurisdiction of any State that has established by statute a requirement for children of a certain age

to wear an appropriate PFD approved by the Coast Guard, while aboard a recreational vessel. If the applicable State statute establishes any requirement for children of a certain age to wear an appropriate PFD approved by the Coast Guard, then that requirement applies on the waters subject to the State's jurisdiction instead of the requirement provided in § 175.15(c) of this part.

### **§ 175.301 Applicability**

(a) This subpart applies to recreational vessels that are propelled or controlled by propulsion machinery.

(b) Recreational vessels constructed prior to August 22, 2016, will be deemed built before model year 2017 and must meet the requirements of 33 CFR 175.380.

(c) Recreational vessels constructed prior to November 19, 1952, will be deemed built before model year 1953 and must meet the requirements of 33 CFR 175.390.

### **§ 175.305 General provisions**

Where fire extinguishing equipment in this subpart is required to be of an approved type, such equipment must be approved as provided in 46 CFR chapter I, subchapter Q. A listing of current and formerly approved equipment and materials may be found on the internet at: <https://cgmix.uscg.mil/equipment>. Each OCMI may be contacted for information concerning approved equipment.

### **§ 175.310 Portable fire extinguishers and semi-portable fire extinguishing systems**

(a) All portable and semi-portable fire extinguishers must—

- (1) Be on board and readily accessible;
- (2) Be of an approved type;
- (3) Not be expired or appear to have been previously used; and
- (4) Be maintained in good and serviceable working condition, meaning:

(i) If the extinguisher has a pressure gauge reading or indicator it must be in the operable range or position;

(ii) The lock pin is firmly in place;

(iii) The discharge nozzle is clean and free of obstruction; and

(iv) The extinguisher does not show visible signs of significant corrosion or damage.

(b) Vaporizing-liquid type fire extinguishers containing carbon tetrachloride, chlorobromomethane, or other toxic vaporizing liquids, are not acceptable as equipment required by this subpart.

(c) Portable or semi-portable extinguishers that are required by their name plates to be protected from freezing must not be located where freezing temperatures may be expected.

(d) The use of dry chemical stored pressure fire extinguishers not fitted with pressure gauges or indicating devices, manufactured prior to January 1, 1965, is permitted on board recreational vessels if such extinguishers are maintained in good and serviceable condition. The following maintenance and inspections are required for such extinguishers:

(1) When the date on the inspection record tag on the extinguishers shows that 6 months have elapsed since the last weight check ashore, then such extinguishers are no longer accepted as meeting required maintenance conditions until they are reweighed ashore, found to be in a serviceable condition, and within required weight conditions.

(2) If the weight of the container is 1/4 ounce less than that stamped on the container, it must be serviced.

(3) If the outer seal or seals (which indicate tampering or use when broken) are not intact, the boarding officer or marine inspector will inspect such extinguishers to see that the frangible disc in the neck of the container is intact; and, if such disc is not intact, the container must be serviced.

(4) If there is evidence of damage, use, or leakage, such as dry chemical powder observed in the nozzle or elsewhere on the extinguisher, the extinguisher must be serviced or replaced.

(e) Dry chemical extinguishers, stored pressure extinguishers, and fire extinguishers without pressure gauges or indicating devices, manufactured after January 1, 1965, cannot be labeled with the marine type label described in 46 CFR 162.028-4. These extinguishers may be carried onboard recreational vessels as excess equipment, subject to paragraphs (a) and (b) of this section.

(f) Semi-portable extinguishers must be fitted with a suitable hose and nozzle, or other practicable means, so that all portions of the space concerned may be covered.

### **§ 175.315 Fixed fire extinguishing systems**

(a) A fixed fire extinguishing system must be of a type approved by the Coast Guard under 46 CFR part 162.

(b) A carbon dioxide system must be designed and installed in accordance with 46 CFR part 76, subpart 76.15.

### **§ 175.320 Fire extinguishing equipment required**

(a) Recreational vessels 65 feet or less in length.

(1) A recreational vessel 65 feet or less in length must carry at least the minimum number of portable fire extinguishers set forth in table 1 to § 175.320(a)(1). A vessel less than 26 feet in length, propelled by an outboard motor, is not required to carry portable fire extinguishers if the construction of the vessel will not permit the entrapment of explosive or flammable gases or vapors.

Table 1 to § 175.320(a)(1)

(ii) On recreational vessels of more than 300 gross tons, either one 160-B semi-portable fire extinguishing system must be fitted, or alternatively, a fixed fire extinguishing system must be fitted in the machinery space.

(3) The frame or support of each 160-B semi-portable fire extinguisher required by paragraph (b)(2)(ii) of this section must be welded or otherwise permanently attached to a bulkhead or deck.

(4) If an approved semi-portable fire extinguisher has wheels, it must be securely stowed when not in use to prevent it from rolling out of control under heavy sea conditions.

(c) Extinguishers with larger numerical ratings or multiple letter designations. Extinguishers with larger numerical ratings or multiple letter designations may be used to meet the requirements of table 1 to § 175.320(a)(1) and table 4 to § 175.320(b)(1).
