SAN ANTONIO!

12 Easy Places To Go Fishing

Bank fishing can be found at several city park ponds and at larger lakes within an hour's drive of the city. Most lakes contain a variety of fish such as largemouth bass, catfish and sunfish. Texas Parks and Wildlife Department stocks rainbow trout at Brackenridge Park each winter.

White bass, striped bass and hybrids make for good fishing in the larger lakes. Lakes Braunig and Calaveras, just south of the city, offer the opportunity to fish for red drum in fresh water!
