Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

Entity

The accompanying financial statements reflect the financial position of the Texas Parks and Wildlife Department (TPWD). TPWD is an agency of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements - Annual Financial Reports of State Agencies and Universities.*

TPWD, established by the Legislature in 1963 by merging the State Parks Board and the Game and Fish Commission, operates under the Parks and Wildlife Code. Policy direction is provided by the Texas Parks and Wildlife Commission. An Executive Director, appointed by the Commission, directs the administration of TPWD.

TPWD's primary functions are management and conservation of the state's natural and cultural resources, provision of outdoor recreational opportunities, conservation education and outreach, and cultural/historical interpretation. To this end, TPWD:

• Operates and maintains a system of public lands including wildlife management areas, fish hatcheries, and state parks, historic sites, and natural areas.

• Serves as the state agency with primary responsibility for conserving, protecting and enhancing the state's fish and wildlife resources. In fulfilling these responsibilities, TPWD monitors and assesses habitats, provides technical assistance to landowners, surveys fish and game/nongame populations, conducts research and demonstration projects, and stocks inland and coastal waters with game fish.

• Regulates and enforces commercial and recreational fishing, hunting, boating, water safety and nongame laws in the state as well as the Texas Parks and Wildlife Code, the Penal Code, the Water Code and the Antiquities Code.

• Monitors, conserves and enhances aquatic and wildlife habitat, including the quality and quantity of rivers, streams, lakes, coastal marshes, bays, beaches and gulf waters. By statute, TPWD coordinates much of this activity with other state and federal agencies.

• Informs and educates the public regarding laws and rules regulating fish, game/nongame wildlife and environmental habitats, boating safety, firearm safety for hunters, fish and wildlife conservation and outdoor recreation in general.

• Provides direct matching grants to local political subdivisions and non-profit entities for planning, acquisition or development of local parks, indoor and outdoor recreational facilities, and for recreation, conservation and education programs for underserved populations.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, revenues, expenditures and fund balances/net position. These accounts are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when their related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. The following activities are recognized in these fund types: capital assets, accumulated depreciation, unpaid employee compensable leave, long-term claims and judgments and pollution remediation obligations.

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Encumbrance accounting is employed for budgetary control purposes. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

Assets, Liabilities, and Fund Balance/Net Position

Assets

Cash: Represents cash on hand, cash in bank and cash in state treasury on the balance sheet.

Legislative Appropriations: Represent the general revenue fund (Fund 0001) amount in the State Treasury at fiscal year-end.

Receivables: Consist mainly of federal, interest and accounts receivable as of the balance sheet date.

Inventories: Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories for governmental fund types use the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in the governmental fund types. The costs of these items are expensed when the items are consumed.

<u>Restricted Cash in Bank:</u> Reflects the current assets portion of restricted cash in a local bank account (after deducting outstanding checks and adjusting for bank charges and credits). Should reflect cash in demand accounts only for agency funds set aside for statutory or contractual requirements.

NOTE 1: Summary of Significant Accounting Policies (Continued)

<u>Capital Assets</u>: Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost, if purchased, or at fair value as of the date of acquisition. Purchases of assets with governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets, such as works of art and historical treasures are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Liabilities

Payables: Payables represent the short term liability accounts reflecting amounts owed under a modified accrual or full accrual basis to private persons or organizations for goods and services received by an agency but for which the agency has not made payment.

- <u>Accounts payable</u> Amounts owed for goods or services actually rendered or provided to the agency by Aug. 31, but for which the agency has not yet made payment.
- <u>Payroll payable</u> represent the August salary payroll and related payroll costs.

<u>Unearned Revenues</u>: Reflects amounts for which asset criteria have been met, but revenue recognition criteria haven't been met. Typically represents fees/other receipts collected not legally due earned at a particular point in time.

<u>Claims and Judgments</u>: Represents payments to claimants/plaintiffs for various legal proceedings and are paid from the governmental funds. TPWD's Claims and Judgments balances are disclosed in Note 5.

Employees' Compensable Leave Balances: Liabilities for the vacation and compensatory leave accrued by employees. The balance is reported on both the current and non-current liability section of the balance sheet or statement of net position. TPWD's Compensable Leave balances are disclosed in Note 5.

Pollution Remediation Obligations: A pollution remediation obligation is an obligation to address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities. TPWD's Pollution Remediation Obligation balances are disclosed in Note 5.

Funds Held for Others: Represents amounts that are being held for another entity in an agency fund and have not yet been distributed to that entity. These amounts do not constitute revenue to the agency fund, nor does their disbursement constitute expenditures of the agency fund. However, it is anticipated that the amounts will be deposited into funds for state use. Examples are suspense fund collections and unappropriated receipts. This account may appear in agency funds only.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Fund Balance/Net Position

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

Fund Balance Components:

TPWD's fund balances for governmental funds are classified as nonspendable, restricted, committed or unassigned in the fund financial statements:

- **Nonspendable fund balance** includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- **Restricted fund balance** includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.
- **Committed fund balance** can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- **Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

A positive unassigned fund balance can only exist within the general fund. Deficit fund balances in a fund are reported as unassigned fund balance.

Net Position

"Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide and fiduciary fund statements.

Net Position Components:

TPWD's net position in the basis conversion funds are classified as net investment in capital assets and unrestricted net position in the fund financial statements:

- <u>Net Investment in Capital Assets</u> Net investment in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.
- <u>Unrestricted Net Position</u> Unrestricted net position consists of net resources that do not meet the definition of Net Investment in Capital Assets or Restricted Net Position. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

When only unrestricted resources are available for use, it is TPWD's policy to use committed resources first, then unassigned resources.

Activities and Transactions

TPWD has the following types of transactions between funds or other agencies:

- 1. <u>Due To / Due From</u>: Accrual of reimbursements, transfers, federal/state grant pass-throughs and shared funds that are owed to or from other funds or other agencies. A 'due to' represent a liability and a 'due from' represent an asset on the balance sheet.
- 2. <u>Transfers</u>: Legally required transfers that are reported when incurred as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.
- 3. <u>Reimbursements:</u> Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

NOTE 2: Capital Assets

Revenue received from the sale of Surplus Property which was originally purchased with funds from the General Revenue Fund 0001 has been transferred to Unappropriated General Revenue in accordance with House Bill 7, Section 20. Claims and Judgments

Claims and judgments that are settled but unpaid at fiscal year-end and that will be paid with future governmental fund resources are presented on the governmental funds balance sheet in the long-term liabilities adjustments column.

TPWD was involved in litigation related to property damage and loss of use arising from the operation of a motor vehicle. The settlement of \$2,715.38 remains unpaid as of August 31, 2019.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Position. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

Pollution Remediation Obligations (GASB 49)

TPWD is responsible for the cleanup and remediation of multiple polluted sites during fiscal year 2019 and is currently managing twenty-seven active sites. Regulatory requirements established by federal and state law obligate TPWD to perform these pollution remediation activities. Actual contract and invoice costs were used to calculate the pollution remediation obligation liabilities. The pollution remediation activity is summarized below:

NOTE 5: Long-Term Liabilities (Concluded)

• TPWD has recognized \$416,244.02 in pollution remediation obligations related to asbestos, mold, lead-based paint and water pollution clean-up requirements.

Realized recoveries are recognized as cash on the balance sheet and as revenues on the operating statement. No recoveries from insurance policies or third parties were received for any pollution remediation activities for fiscal year 2019.

NOTE 6: Bonded Indebtedness Not Applicable

NOTE 7: Derivatives Not Applicable

LSEs can be issued for a wide range of third party uses of our lands, including roads, driveways, pipelines, valve stations, transfer stations, power lines, substations and other utilities.

There were no reported contingent rental revenues.

Capital Leases

TPWD did not enter into any long-term lease agreements for financing the purchase of capital assets as of August 31, 2019.

	Basis Conversion – Capital Assets (Fund 9998)	Total

NOTE 15: Contingencies and Commitments (Concluded)

Federal Assistance

TPWD receives federal financial assistance for specific purposes that are subject to review or audit by the federal grantor agencies. Entitlement to this assistance is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of assistance for allowable purposes. Such audits could lead to requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowance (if any) will be immaterial.

Arbitrage

Rebatable arbitrage is defined by Internal Revenue Code, Section 148, as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investment were invested at a yield equal to the yield on the bond issue. The rebatable arbitrage must be paid to the federal government.

The Texas Public Finance Authority (TPFA) was created in 1984 by an act of the Texas Legislature to provide financing for the construction or acquisition of facilities for State agencies through the issuance of general obligation and revenue bonds and revenue commercial paper. TPFA monitors all investments to restrict earnings to a yield less than the bond issue and, therefore, limit any arbitrage liability to the State. No liability is accrued until the end of a five-year period for the required payment or upon the maturity of the obligation. TPWD estimates that rebatable arbitrage liability (if any) will be immaterial to its overall financial conditions.

Commitments

Contractual Commitments

As of August 31, 2019, TPWD had outstanding contractual commitments of approximately \$120 million for facilities and other improvements, building replacements, maintenance and repairs and infrastructure and infrastructure maintenance and repairs.

NOTE 16: Subsequent Events Not Applicable

NOTE 17: Risk Management

TPWD is exposed to a variety of civil claims resulting from the performance of its duties. It is agency policy to periodically assess the proper combination of risk retention, insurance purchased through the State Office of Risk Management (SORM) and commercial insurance to cover losses to which it may be exposed.

RETENTION OF RISK

TPWD substantially assumes all risks associated with tort and liability claims due to the performance of its duties. TPWD's claims and judgments are mainly related to tort claims against the agency for property damage and personal injury arising from the operation of a motor-driven vehicle. TPWD is slowly transferring this risk to an automobile insurance policy purchased through SORM. As of August 31, 2019, this automobile insurance policy covered 116 of the Department's 2,500 vehicles.

INSURANCE POLICIES (SORM)

TPWD is exposed to a variety of risks including but not limited to property, automobile, public relations, builders risk, liability claims, tort claims, theft, damage to assets (boats, radios, radio towers, etc.), and business interruption (flood/fire/weather).

TPWD has purchased three lines of insurance through SORM: property, volunteer and automobile.

The Statewide Property Insurance Program is designed to provide State Agencies the ability to transfer the financial burden resulting from property damage and loss to agency assets. The property insurance program covers up to \$1,500,000,000 for any one occurrence for all perils; coverage is shared by all participants of the statewide program and is subject to sublimits as listed in the policy. Insured perils include Acts of God, theft of agency property, acts of terrorism and business interruptions.

The Statewide Volunteer Insurance Program was developed to provide excess personal liability, excess automobile liability and accident medical expense coverage for any designated or registered volunteer of Texas State Agencies.

The Statewide Automobile Insurance Program is designed to provide automobile liability and physical damage coverage to state agencies. The policy provides liability limits up to the Texas Tort Claims Act caps: \$250,000/\$500,000/\$100,000; and up to \$1 million when the Texas Tort Claims Act does not apply.

The automobile insurance policy automatically includes 'hired and non-owned' coverage which provides protection to state entities whose employees drive their personally-owned, leased, or rented vehicles in the course and scope of employment. The policy will pay the difference for covered claims between the underlying policy limits of the personally owned vehicle and the total amount of the loss, up to the policy limit. For personally-owned vehicles driven by state employees in the course and scope of employment, the non-owned liability coverage is excess coverage to protect the state entity that will respond after the employee's personal insurance has been exhausted. Premium is a flat rate multiplied by the number of drivers.

TPWD also elected to purchase 'physical damage' coverage on state-owned motorized equipment. This may include but is not limited to: private passenger vehicles, buses, trailers, golf carts, tractors

NOTE 17: Risk Management (Continued)

and other mobile equipment. The coverage pays for repair of the state-owned motorized equipment, or Actual Cash Value if the vehicle is totaled.

COMMERCIAL INSURANCE POLICIES

TPWD purchased a general liability commercial insurance policy for prescribed burns.

Prescribed burning is a management tool widely used by foresters, parks departments, range and wildlife managers, ranchers and other landowners to manage excessive natural fuels under very specific and safe conditions. The general liability policy covers losses associated with bodily injury or death or injury to or destruction of property resulting from a prescribed burn of up to \$1,000,000 for each occurrence.

SURETY BONDS

TPWD has purchased a surety bond to act as a deputy of the Travis County Tax-Assessor Collector (TCTAC) for the purposes of registering TPWD-owned vehicles pursuant to Transportation Code Section 520.0071. This section of the code authorizes TCTAC to require a bond to perform that service. The surety bond will enable TCTAC to be compensated for any losses that occur due to mishandling of funds by TPWD. The maximum loss possible was calculated by considering the state portion of the inspection fees due annually to the county for an estimated 250 TPWD standard vehicles and 50 commercial vehicles, based on Travis County fee rates, though inspection fees vary slightly statewide. This estimate assumes higher numbers of vehicles being processed and fees being assessed than likely will occur.

WORKERS' COMPENSATION

SORM is charged by Chapter 412 of the Texas Labor Code to administer the self-insured government employee's workers' compensation insurance program for the State. Workers' compensation claims of state employees are filed with and determined by SORM.

The annual assessment amount imposed by SORM includes workers' compensation coverage for the agency's employees and the agency's portion of SORM's costs to administer the program. TPWD's annual assessment amount totaled \$960,039.81 for the fiscal year and were recorded as increases in current year expenditures.

PUBLIC ENTITY RISK POOL

TPWD is not involved in any risk pools with other government entities.

NOTE 17: Risk Management (Concluded)

CLAIMS AND JUDGMENTS

The agency's liabilities are reported when it is both probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years.

Changes in the balances of the agency's claims liabilities during fiscal year 2018 and 2019 were:

	Claims and Judgements				
	Beginning Balance	Increases	Decreases	Ending Balance	
2019	\$ 2,715.38	\$ 159,445.46	\$ 159,445.46	\$ 2,715.38	
2018	\$ 0.00	\$ 218,333.48	\$ 215,618.10	\$ 2,715.38

NOTE 20: Stewardship, Compliance and Accountability

The License Plate Trust Fund reported a deficit fund balance of \$122.7K in appropriated fund 0802. The deficit is the result of an increase in state grant pass-through expenditures to universities to perform research on Chronic Wasting Disease.

The Deferred Maintenance Fund reported a deficit fund balance of \$254.2K in appropriated fund 5166. The deficit is the result of an increase in construction expenditures to replace buildings at Mustang Island State Park and the Marine Development Center.

TPWD had no material violations of finance-related legal or contractual provisions. There were no changes in accounting principles or fund types during the fiscal year.
